

011: Park Pool, Ormskirk

Client: Serco Leisure

Main Contractor: FT Leisure

Project Value: £32,000.00

Completion Date: August 2006

Project Overview:

Park Pool is a West Lancashire Community local leisure facility. The centre is operated by the facilities management organisation, Serco Leisure.

The aquatic facilities include a 25m main pool, a 12m teaching pool and an exclusive health suite containing a luxury spa pool.

F T Leisure were employed by Serco Leisure to carry out the design, supply and installation of new water treatment and filtration system for the spa pool. The system was based on standard sand filtration with disinfection and pH correction.

The scope of works including all mechanical and electrical services, including interfaces with existing equipment.

In addition to the mechanical and electrical installation, F T Leisure also supplied and installed a new Acrylic Spa pool shell. In order to accommodate the new shell and to enhance the surrounds surfaces, F T Leisure's in-house fabrication specialists also design and installed marble effect polyethylene surround finishes, giving the spa pool a distinctive look.
